

New Web Portal Ready for you!

Pinnacle's DNet 2.0 online web portal is working well and ready for your use. The website offers many valuable features for our clients and their team members. Owners can review invoices, data on team members, custom report options, and a client dashboard which is very user friendly. Owners can create company news that would be available on all team members dashboards. One exciting feature is electronic on boarding. This means that new hires can complete their employment paperwork online in a paperless environment.

For team members, you can see your pay stubs online, check history, confirm personal information, and print your own W2. The upgraded software works on most computers and on mobile devices.

We encourage you to contact our office for more information, and to obtain a user name and password. The Pinnacle contact is Maritza Garcia at 866-344-4477 ext 108 or [maritzagarcia@pinnaclepeo.com](mailto:maritzagarcia@pinnaclepeo.com)
